Hey girl, sweet thing
I want everything
You love me too
And I want you

Well, I think I'm gonna
Jump right through your window
And I think I'm gonna
Jump into your life

'Cause you got me
In a bad situation
And I want you

Well, the TV says that
Love is all around us
And the astronauts
Can feel it far away

But it's got me
In a bad situation
And I want you

Yeah, I think I'm gonna
Take a short vacation
And I think we're gonna
Have to start anew

'Cause you got me
In a bad situation
And I want you
