Hey girl, sweet thing
I want everything
You love me too
And I want you
Well I think I'm gonna
Jump right through your window
And I think I'm gonna
Jump into your life
Cause you got me in a bad situation
And I want you
Well the TV says that
Love is all around us
And the astronauts
Can feel it far away
But it's got me in a bad situation
And I want you
Yeah I think I'm gonna
Take a short vacation
And I think we're gonna
Have to start anew
Cause you got me in a bad situation
And I want you
