I got pills that make me cranky
I got pills that make me cry
I have crooked information
Tiny nightmares in the sky

Rest your head upon my pillow
Put my hand inside your bed
You can have it if you want it
If you'd like to take a chance

I can hypnotize a pancake
I can levitate the Pope
I can make your teacher crazy
'Cause it's all within my scope

Rest your head upon my pillow
Put my hand inside the bed
You can have it if you want it
If you'd like to take a chance

Teenage lightning in the basement
Teenage lightning in the night
Teenage lightning on my window
Teenage lightning is alright
