in hollywood i hear they have a discoteque for dogs
and summer camp where you can send your cabbage
patch dolls
if you would point up at the skyline
others will look too
you could walk on down the street smilin' to yourself
it's hard to get things done
with everybody playin' dumb
it's hard to get along
to get along with you
my nextdoor neighbor paints all night
and sleeps the day away
he visits funerals when he can
and crashes parties too
my upstairs neighbor drinks too much
he's stinking up the stairwell
he cleans his gun
it's down the hatch
heres to all of us
it's hard to get things done

with everybody playin' dumb
it's hard to get along
to get along with you
???????? is all day long
and sitting eating popcorn
the pictures splash into your eyes
and you don't understand
your expression never changes
as if that could protect you
your sitting in the darkness now
waiting for the end
it's hard to get things done
with everybody playin' dumb
it's hard to get along
to get along with you
