Attack...

Here we are

Assumed as a wreath on the sculpture god's

Sisters heritors from inherent fire

Demons maggoty

No we are

The winter breath fierced frolicing

Libido dreams of eternal kisses

Thunders from heart

Let allay our indifference

... so we breed the flames

We breed the stars

Priestess still fertile

They're breeding for us

Evil unrest

But as sarsen

Spectre

Are we reverent?

Venerates with brilliant knowledge

Of phantom speech in epitaph embrace

If catharsis by darkness abduct our spirits

At last?

Frantic shadow fell onto us

There is yearning inside

There is our confession

For the dark's eternal glory

Into the glow of the beaming moon new

I'm glad our deliverance shall come soon

Desirous to being erred

Imbue with erotic craft

But we're sentimental

Then benighted cerements

Freeze the flesh between nocturnal frost

Dimness gods are proud again

Of their lords believers

Supernal

Beyond the candles burning

Bond so the black mirror above

Upon the unholy sanctum shore

Dark ocean gives us an atmosphere supreme

And our eyes drown in black

As they are Â- for all

Dimness lords craving still reign  
Into the fading cold silence  
We took a long voyage for infusion inside  
An immortal act into the gentle darkened romance...
