"Big Escape"

We don't belong here in this town,
where all is lost and nothing's found.
Let's steal a car and change our na-a-ames.
You grow your hair to hide your face and you can...

Meet me underneath the trees of Rome,
So we can get away, into the great unknown.
And like a star we'll melt into the clouds.
Make our big escape, they'll never touch us there.

I can't remember to forget,
my conscious always breaths regret.
But maybe we could start again,
forget the faces of our friends.
So will you...

Meet me underneath the trees of Rome,
So we can get away, into the great unknown.
And like a star we'll melt into the clouds.
Make our big escape, they'll never touch us there!!

Meet me underneath the trees of Rome,
So we can get away, into the great unknown.
And like a star we'll melt into the clouds.
Make our big escape, they'll never touch us there!!

We don't belong here in this town, so meet me
underneath the trees of Rome...
