I'm makin it with other species
lickin up thier little feces
a german shepard, a big strong leopard
they do it better than any man can!

Chorus

Makin it with other species
Makin it with other species
Makin it with other species
Makin it with other species

china was, monkeys too, salamanda's stick like glue,
a big cow or just a horse
and a little duck of course
little chicken, big fat hen
all the tigers in the den
a porcupine is kinda kinky

gerbils can be pretty stinky
any animal any size I love then all
you gotta realize
don't talk back
even if they explode.

Chorus

little hamster you feel so fine
your soft fur ls just sublime
I'm makin it with other species
