I will follow you  
I will swallow you  
I must have all of you  
There's nothing you can do

I will make a weapon of you yet  
I will make you into my own pet  
I will make a wreck of your deepset  
Eyes and leave you sad and wet

I will ruin you for every next  
A mess of malfunctioning sex  
I will destroy you dream by dream  
I will addict you to extreme  
I die with every night  
I fall with every knife  
I kill with every breath  
I trip with every step  
I swallow, flinch and hiss  
Lying in my own piss  
I suck with every lick  
I drink and slam and hit  
I die with every night  
I crash with every flight  
I tumble, slide, abrade  
I fumble, cry and fade  
I kill with every look  
I drill with every hook  
I am the huddled mass  
Love has only ever kicked my ass

I will make a doorknob of you yet  
I will make you want me to invent  
A better form of this abuse  
And f\*\*k you five ways from obtruse  
I will make a weapon of you yet  
I will make you into my own pet  
I will make a wreck of your deepset  
Eyes and leave you sad and wet

I grow with every use

I know with each abuse  
I blow and suck the juice  
While you are blind amused  
I turn with every chance  
I tuck with every dance  
I hide and horde and fill  
I plan to break your will
