I see the lights of the city tonight and I see a star
shinin' so bright
A babe in a manger in swaddling clothes, it's you, it's
me everyone knows

The Christmas spirit is in the air, the Christmas spirit is
everywhere
Like the day Christ was born in Bethlehem, the
Christmas spirit has been coming down

I hear the sound of church bell ring, and I see kids and
grown-ups sing
A real live nativity scene, it's you, it's me, we all know
what it means

The Christman spirit is in the air, the Christmas spirit is
everywhere
Like the day Christ was born in Bethlehem, the
Christmas spirit has been coming down
An it's time to let the angels sing, it's time to praise the
newborn King
It's time for that eastern star to shine, it's time, it's
Christmas time

Yes, it's time to let the angels sing, it's time to praise
the newborn King
It's time for that eastern start to shine, it's time, it's
Christmas time

Since the day Christ was born in Bethlehem, the
Christmas spirit has been coming down
