Ribbons and paper cover the floor, it's been a great  
Christmas with presents galore  
Everyone's happy and I'm happy, too  
Oh, what a night, oh, what a night, night before  
Christmas I had with you

Frost on the window, snow on the ground, holiday  
spirit, holiday sounds  
Everyone's thankful and I'm thankful, too  
Oh, what a night, oh, what a night, night before  
Christmas I had with you

It all started underneath that mistletoe when we were  
waiting up just to help ole Santa Claus  
We were making merry in ways we'd never thought of  
When we heard those sleigh bells and ole Santa almost  
caught us

We didn't take no pictures,  
But I still remember one very special twenty-fourth day  
of December  
Oh, what a night, oh, what a night, night before  
Christmas I had with you  
It all started underneath that mistletoe while we were  
waiting up to help ole Santa Clause  
We were making merry in ways we'd never thought of  
When we heard those sleigh bells and ole Santa almost  
caught us

If we don't do this next year, honey, I'm sure gonna  
miss it  
Why don't we make it a new Yuletide tradition  
Oh, what a night, oh, what a night, night before  
Christmas I had with you  
Oh, what a night, oh, what a night, night before  
Christmas I had with you
