Presents underneath the tree  
Candles burning bright  
Stockings hung with lots of care  
On this silent Christmas night  
What makes this season magical  
Is what made my dream come true  
Just seeing you  
To be here with you

Oh this Christmas time  
Is the best one ever  
The greatest gift in life  
Is you and me together  
And I thank heaven for sending you here tonight  
This Christmas time

Some people hope for rings of gold  
All that money buys  
Children have their list of toys  
Prayin' Santa gets it right  
The one thing I wish for  
Came true when you walked in  
To hear you laugh again  
To see you smile again

Oh this Christmas time  
Is the best one ever  
The greatest gift in life  
Is you and me together  
And I thank heaven for sending you here tonight  
Oh this Christmas time

Oh this Christmas time  
Is the best one ever  
The greatest gift in life  
Is you and me together  
And I thank heaven for sending you here tonight  
Sending you here tonight  
This Christmas time
