Silence - at the threshold of life  
Can you feel - that empty body  
Do you remember - the way you lived  
You are dying - all the years have  
Disappeared

Why - did you live - wasted time  
You - lived this way - you don't know why  
You'd like - a few more days - though  
There is no time  
Time - you wanna turn back - but don't  
Know how

Everything - you are willing to give  
You'd like - for the last time  
To see - what you didn't realise  
The wonderful - sunrise

You don't have a clue  
Everything you had - is lost  
So many deceits  
You went through - no more  
Cry - over the way  
You lived - all the years - disappeared...

Pain - you'd like to feel again  
Pleasure - you'd like to laugh again  
To live - you'd know another way  
You'd like - but there is no time
