I used to fear, I used to cry  
I used to wish never to die  
But I've changed my mind  
Life can't be survived

Now I don't fear, now I don't cry  
And what I wish is soon to die  
Because I see  
Only dead I'll be free

Life is a prison  
Death will be release  
Just after death  
All trouble to die

Day by day  
I had to strive  
Now I want to end it  
I want to die

This fucking life  
Is a fatal disease  
So why should I struggle  
Let me rest in peace

Come on, come on  
Come 'n' die with me  
Death is the freedom
