Baby girl, would you be, all I need is
If you see
Baby girl, would you be, all I need is
If you see

He be like one thing two
You be up and in my ride
You be like one thing two
We be riding through the night girl

Wine over bala, you sexy dada
Way you take me higher, scatter my dada
I know it leave you rara, I dare your mata
The way you move your fire,
Make be holler yeah

Hey ma you look so special, beauty queen potential
Nice to meet you formally, then we can make this thing
official
My name is Luni, they say I'm too neat
I be digging you case me be thinking you a cutie
I see you looking treandy, so boys wanna tweak
You looking good so really, you deserve a treat
My snicks so fresh, call me happy feet
I club like captain caveman so rock to the beat

[Chorus]
Wine over bala, you sexy dada
Way you take me higher, scatter my dada
I know it leave you rara, I dare your mata
The way you move your fire,
Make be holler yeah
He be like one thing two
You be up and in my ride
You be like one thing two
We be riding through the night girl
He be like one thing two
One thing two, I've been wanting you

All the girls anonymous
Girl you from a captimus

Where all the state the obvious
But your frame is hazardous
So addictive, you my ecstasy
And they should see why
Like they x and z

[Chorus]

Wine over bala, you sexy dada
Way you take me higher, scatter my dada
I know it leave you rara, I dare your mata
The way you move your fire,
Make be holler yeah
He be like one thing two
You be up and in my ride
You be like one thing two
We be riding through the night girl
He be like one thing two
One thing two, I've been wanting you

Tell the dj, put on replay
I don't moonwalk but I'd be bad as mj
You be banging, like a migraine
Way you go low, busting my brain
I'm in pain, you insane
While you pop the booty, I'ma pop champagne
Twilight movie, Shawty wanna bite
Like a british car, I will drive you right

[Chorus]

Wine over bala, you sexy dada
Way you take me higher, scatter my dada
I know it leave you rara, I dare your mata
The way you move your fire,
Make be holler yeah
He be like one thing two
You be up and in my ride
You be like one thing two
We be riding through the night girl
He be like one thing two
One thing two, I've been wanting you.
