Remember - like raindrops in the wind  
They rise and crystallize in the sky  
As the snow in front of my window  
You run like molten snow and follow the flow  
Of the brook - the stream - the river then the sea  
Between big fish and submarines  
Remember - the times you're looking  
For leaves in autumn under trees

Remember - the times you're looking  
For leaves in autumn under trees

Remember - like raindrops in the sea  
Who join to the sun and the long run  
Through the winds between the sky  
And the streams they begin  
Remember - what you see - you love - you hate  
Remember  
When you feel the times you're looking  
For leaves in autumn under trees  
These times will never change to me
