Visit "[Rumour](#)" on MotoLyrics.com

It's only a deception that man can fly
Travelling round the world
Flying into the universe
Are all bad lies
The only truth is hidden

It's only a contention that sky is wide
Earth's said to be a ball
Revolved by heavy tin-machines
In dizzy heights
Dare I know these secrets?

It's only a rumour
No sun does exist
It's maybe a rumour that the earth turns

It's only a contention that man flew to the moon
Counterfeit in studios - by pasteboard
Population has been fooled
This knowledge is forbidden
