"Big Mistake"

Standing with your back against the wall
With your face towards the door,
You don't look at me the same way that you did anymore
And I know that's a poor excuse,
And I just wanna make it right
I've got nowhere else that I would rather be than here tonight

She meant nothing to me
I wish you would believe

Everything came down,
I'm not leavin', I'm not leavin' us but
I am going out of my mind
Tell me what to say,
I'm not leavin', I'm not leavin' us this way
But I, made a big mistake

You've been slippin' out from underneath,
Slippin' far away from me
I was drunk and I was lonely and I found some company
I know that's a bad excuse,
But baby it's the honest truth and I am sorry
Yeah, I'm sorry

She meant nothing to me
I wish that you could see

Everything came down,
I'm not leavin', I'm not leavin' us but
I am going out of my mind
Tell me what to say,
I'm not leavin', I'm not leavin' us this way
But I, made a big mistake

It is what it is, not leavin' like this
We'll take it from here

We'll find a way to work it out
An honest mistake, I know what you'll say
But just hear me out
I know that we can find a way

Everything came down,
I'm not leavin', I'm not leavin' us this way
I'm not leavin', I'm not leavin' us so
Tell me what to say,
I'm not leavin', I'm not leavin' us this way
But I, made a big mistake

I'm not leavin', I'm not leavin' us this way
Oh, I'm not leavin' us this way
I'm not leavin', I'm not leavin' us this way
