[John Legend]

Take me to that old familiar place  
Take me to memories we won't erase  
Take me to all that we had  
Good and the bad

I'll never forget you  
I'll never let you go  
I'll never forget you  
I'll always remember, I hope you know

[Lupe Fiasco]

Let the record reflect the records we set  
Best foot forward with every step  
And let's push towards it, never regress  
And let's remember, if ever we get  
Down, the places that we came from 'round  
And all the good times on the bad side of town  
The upside of bad, flip it upside down  
Came from the bottom but we up high now  
Believe, and from this view we achieved  
We looked back at the rules we received  
And how we broke those, dismantled and rewrote  
those  
And the ghost still alive in the photos  
Sounds of the summer, day and go wise  
Cold wind blowin' through a city on fire  
Moments of the past, came here to find you  
Not to relive them, just to remind you

[John Legend]

Take to that old familiar place  
Take me to memories we won't erase  
Take me to all that we had  
Good and the bad

I'll never forget you  
I'll never let you go  
I'll never forget you  
I'll always remember, I hope you know

[Lupe Fiasco]

And let the evidence show, the future's so bright  
It's never been more, not like tonight  
We walk into the glow, right into the light  
The past all around us, the time of our life  
The first love kisses, the broke heart disses  
This is just like a first-class ticket  
Back, to the first written rap  
The crumbled-up paper and the pen with no cap  
The hand-me-down clothes and the unturned hat  
The hookers on the corner and the kids sellin' crack  
The needles in the yard where we used to play catch  
Stories from the project we could never go at  
Or to, these are shades of my youth  
Trials of a child, everything truth  
Moments of the past, comin' back to find us  
Not to relive them, just to remind us

[John Legend]

Take to that old familiar place  
Take me to memories we won't erase  
Take me to all that we had  
Good and the bad

I'll never forget you  
I'll never let you go  
I'll never forget you  
I'll always remember, I hope you know

[Lupe Fiasco]

Everything cherished, remembered in my heart  
So you will never perish, you will never part  
I tell 'em all about you, drummin' in the park  
We put you in the ground, but I see you in the stars  
Go'n, take a bow, a round of applause  
The best that ever, always ready we are  
Love always shines, that's how I'll find you  
In case you forgot, I hope this reminds you

[John Legend]

Take to that old familiar place  
Take me to memories we won't erase  
Take me to all that we had  
Good and the bad

I'll never forget you  
I'll never let you go  
I'll never forget you  
I'll always remember, I hope you know
