[Chorus: Eric Turner]

It's the way of the stage it's like a stereo sun, ohh ahh
aiyy

It's like a stereo sun

It's the way I build up, the system really gets done, ohh
ahhh aiyy It's like a stereo sun.

[Verse 1: Lupe Fiasco]

I hear it, the spirit

And I don't fear it

Matter 'fact I steer/spear it

Right in the heart of the hardships,

I don't veer it

And this car is just a metaphor for my experience

No registration or insurance, just a license to ill,

God's hands on the wheel, and my pedal's to the
ceilin', peelin'

Speedin like 24 frames through the lights,

With the traffic cameras filmin', brights

So I could see the brilliance of this life I've been givin',
livin'

To start a revolution every minute

Driven' to win it, no breaks, no pittin'

Poll position ya soul, keep ya windows tinted

So we can see out it, but they can't see in it

So this here's ours, and them their's rented

Cars moving at top gear, Jeremy Clarkson

I feel like this my first track and I ain't even start nothin'

[Chorus]

It's the way of the stage it's like a stereo sun, ohh ahh
aiyy

It's like a stereo sun

It's the way I build up, the system really gets done, ohh
ahhh aiyy It's like a stereo sun.

[Verse 2: Lupe Fiasco]

The sky's on fire, the storm is almost near us

But that's when I'm the clearest. When things are the
severest

I'll be here for it's arrival and for it's disappearance.

Broadcastin' live and clear, even with the interference.
See this is what it sounds like when life becomes lyric.
The best thing ever, you should really come and hear
it.

But if you cant, cool. We'll be coming to your nearest,
soon.

Shinnin' like two suns, is better than two thumbs
The whole plot's to get you to stop from doing what you
do, to do better than you've done.

Then we'll scare down the feds in the room. Who dares
not to scare? Hear it, boom!

Unaffected by your werewolves, ghosts and your 'boo'
The tour through the tombs don't do nuttin to 'em.

Neva'

I turn the pressure into treasure.

My problem's in the presents

And my presence is foreva'

Yes!

[Chorus]

It's the way of the stage it's like a stereo sun, ohh ahh
aiyy

It's like a stereo sun

It's the way I build up, the system really gets done, ohh
ahhh aiyy It's like a stereo sun.

[Outro]

(Love, always, shines)

Like a stereo sun

It's like a stereo sun

(Love, always, shines)

It's the way of the stage

It's the way of the stage

(Love, always, shines)

Like a stereo sun, ohh ahh aiyy

It's like a stereo sun

(Love, always, shines)

Like a stereo sun

(Love, always, shines)

It's like a stereo sun
