Uh, Fresh to def she is
From her steps to the set she is
So "death" might not let me live
Ya dig
Fresh uh huh, yes she is
Had a feelin that is would be a day like this
The orchestra in my mind don't play like this (naw),
But I'm prepared for it
Got a lil rare for it
Brushed off my airs
Even cut my hair for it
Cause normally I don't care for it
Don't even be looken for like, like that
Then there go it
Yea right over there so I prepare the poet
Lil scared my stair lowered
Momma said have no fear
Plus I'm already outta my chair
God love my airs on my square from here forward
It's nuthen right so here go it
Whisper in her ear "its kinda crowded in here"
Won't you care to blow it she said "yea"

[chorus]

Your my sunshine (your my sunshine),
Your my moonlight (your my moonlight),
Your the starry skies above me wont you please come
down and hug me,
Think i found love in this club tonight(Wowowowo)

Never met her before
But I think I like her like a metaphor
It's hard ta get in the car we sit
From the intro she rolled down her window just incase
some was a skit
So I compliment her on the common sense
I'm calm
A lil more confident (Uh Huh)
And then we lose consciousness
She says "that I've been waiten for you"
And I know you been chasen me too since they

kidnapped me from a castle
I been thinken of you
I told a firebreathen dragon "he bet not harm me" or he
be sorry when he meets my one man army
And thou has come ta rescue me
My knight in shinen armor yes you be
Woken up by the horn of an SUV
I said "see, too beautiful to let you sleep"

[chorus]

Relationship is just 30 minutes long
It's kinda heavy maybe a lil strong
"Go and take" much more than once
Can't trust what each of us say at least for a month
Or two before I bid you a due
Do this one thing for me outta the trillions and numbers
that's in the world
Just leave me a few that lead to you
Won't be longin I see you in the mornin

[chorus]
