(feat. Iesha Jaco)

They thought it was cool to burn crosses in your front
lawn as they hung you from trees in
Your backyard.
They thought it was cool to leave you thirsty and strand
katrina.
He thought it was cool to carry a gun in his classroom
and open fire, virginia tech columbine,
Stop the violence.
They thought it was cool to tare down the projects and
put up million dollar condos,

Gentrification.
They think its cool to stand on the block hiding
products in their socks making quick dime bag
Dollars.
They think its cool to to ride down on you in blue and
white unmarked cars, bustin you upside
Yo head.
Freeze....cause the problem is we think its cool too.
Check your ingredients, before you overdose, on the
cool.
