L

Hope the wound heals but it never does
That's cause you at war with love
You at war with love, yeah

G

These battle scars, don't look like they're
fading
Don't look like they're ever going away
They ain't never gonna change
These battle

L

Love!
Never let a wound ruin me
But I feel like ruins wooing me
Arrow holes, they never close from cupid on a shooting
spree
Feeling stupid cause I know it ain't no you and me
But when you're trying to beat the odds up
and tryin to keep your nods up
you know that you should know
And let her go
But the fear of the unknown
Holding another lover strong
Sends you back into the zone
With no Tom Hanks to bring you home
A lover not a fighter
On the frontline with a poem
Trying to write yourself a rifle
Maybe sharpen up a song
To fight the tanks & drones of you being alone

G

I wish I never looked, I wish I never touched
I wish that I could stop loving you so much
Coz I'm the only one that's trying to keep us
together
When all of the signs say that I should forget her
I wish you weren't the best, the best I ever had
I wish that the good outweighed the bad
Cause it'll never be over,
it'll never be over
until you tell me it's over
until you tell me it's over

These battle scars, don't look like they're fading

Don't look like they're ever going away

They ain't never gonna change

These battle scars, don't look like they're fading

Don't look like they're ever going away

They ain't never gonna change

These battle

L

Then just leave then

You shouldn't have but you said it

And I hope you never come back

It shouldn't have happened but you let it

Now you're down on the ground screaming medic

The only thing that comes is the post-traumatic stresses

Shields, body armours and vests don't properly work

That's why you're in a locker full of hurt

The enemy within and all the fires from your friends

The best medicine is to probably just let her win

G

I wish I couldn't feel

I wish I couldn't love

I wish that I could stop cause it hurts so much so much

And I'm the only one that's trying to keep us together

When all of the signs say that I should forget her

I wish you weren't the best, the best I ever had

I wish that the good outweighed the bad

Cause it'll never be over,

can never be over

until you tell me it's over

until you tell me it's over

These battle scars, don't look like they're fading

Don't look like they're ever going away

They ain't ever gonna change

These battle scars, don't look like they're fading

Don't look like they're ever going away

They ain't ever gonna change

These battle

Cause you've set me on fire fire

I've never felt so alive, yeah

L

Now, hoping wounds heal, but it never does

That's because you're at war with love

G

And I'm at the point of breaking uh-huh
And it's impossible to shake it
L
Yeah,
see
You hoped the wound heals, but it never does
That's cause you at war with love
Hope it heals, but it never does
That's cause you at war with love
G
These battle scars, don't look like they're
fading
Don't look like they're ever going away
never
They ain't ever gonna change
never
These battle scars, don't look like they're
fading
Don't look like they're ever going away
never
They ain't ever gonna change
never
These battle scars, don't look like they're
fading
Don't look like they're ever going away
They ain't ever gonna change
These battle
