My man Lupe asked me... a freestyle?  
kick some massive freestyle  
A lot of massive freestyle  
I'm just saying!  
So freestyle, yeah!

I absorb this energy, refer to my memory and scenes  
and lines and rhymes  
So put together for these times  
Right off the top like suicide jumpers landing on your  
block, uh  
I do pauses like that, I do... to stretch  
... more like a suggestion, but maybe is the truth  
Still falling off the roof, uh  
Thought I was dead, no then I hit the ground  
Call the police and hit the pound  
Is 911 when when you...  
Is a lot around when... the fun  
See I do it like my flows and I was a 92  
And I was in school and I was rapping like ghost face  
killer with a higher...  
With a... and the megaphone zone  
Can't nobody stop when the dread is gone along  
So I'mma keep the... and never said...  
The beer be the poison and the food and the liquor  
And you watch and study the moves of the niggers  
From the back with the jungles on attack  
With the Mac tucked in with the strap, bring it back  
Uh, see I do it, but I feel it when it's done  
And then when I comment then you run  
See I messed up dear, but then the best up here  
I try to do that... fear and say  
Moving like a movement dude, me and you  
Me and him is me and him two and two  
Four and four math don't work, but the... don't work  
so I wash it in the shower for an hour  
But the rain is still is... any lines, many times  
Any rhymes that I kick or I commit  
Like a murder serving shit, hit you like a burglar  
... when I'm sneaking through the back with your purse  
sir

And that's a man with a lady bag,  
Maybe drag, maybe fat  
But no less homo, no zone goes deeper than mine  
when I'm in time... and commit crimes every time when  
I'm...  
The New York flow is kicking in...  
So I'm like President Obama when I'm ripping it  
Maybe a terrorist, maybe embarrasses us  
But never scaring us, and everything is...  
... is more better, and can't nobody be stop when I  
score  
A sweater like a booster, when I'm jumping I'm a polo  
on...  
You can call me what I am like... I'm a...  
So word to the homie and the hero never zero  
And I move and I disappear, representing like... in court  
You're still might lose!  
I get punch, but I still don't bruise  
Fly like that cat, semi-automatic attack  
The raps, and they give... to everybody back in the day  
But that's more than no... when I'm flowing in  
Everybody trying to... but I'm shocked, I'm going in!  
Shout the... two times, two rhymes, funk master flex.  
And... and I'm still Ramadan  
My momma blind, and everybody dropping bombs  
Buum! and let's do it like nuclear war...  
Is full of these lyrics and spiritual  
Can't nobody stop the massive attack when the rap is  
so lyrical  
Uh, and then I bless up and...  
When I come through, you better put your vest up  
Cause chest shots ain't coming more like for the dawn  
And I rap like it's going home  
Like... it's going home, like it's flowing on beaten  
Broken bones... stick to your football track... and  
attacking it and...  
Can't nobody stack to this  
You can't stack up and back up  
Rest in peace till my brother S Cole is... we let you see  
us  
Some... some so deliverance  
Said it when I be kicking it, spitting it and ripping it  
See, that's a... and fair like I don't care  
But I still rock like I'm the player of the year  
So I shout to the best and I move you around like the...  
to the Brooklyn  
Shook it! Can't nobody stop it,  
Can't take it where I took you  
And if you want more then just push it, and I'll be there  
Rocking, kicking the head, and then just split it  
Ripping it down and doing things

And I might give you a pound but if the phone don't  
ring, don't be mad!  
Homie just be sad cause you're missing out  
I'm giving out more knowledge to drop it  
It's like school and the college and the university is like  
the...  
And rhyming, we're rhyming wits, trying to drop a dime  
in this  
With a dime and glits, ring black hammer  
Keep it rolling round...  
I'mma run around stunning on you and your crew  
So I bless you to do something  
Never step... and I might have to rep you cousin!  
And best believe we had fun from on top... and homie  
keep rocking!
