

## Lupe Fiasco "Heart Donor"

Visit "[Heart Donor](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I'm a heart donor, I'm a heart donor  
Everything I got, I give it all to you  
My heart and my soul, I give it all to you  
Cause I'm a heart donor

I'm just a conduit  
To keep you calm through it  
So you respond lucid  
The man you love foolish  
When it's gone, stupid  
You think you gonna lose it  
But you don't bounce, you respond to it  
Like you Sean Con or ?  
With a blonde in your palm, King Kong in your  
coolness..  
But they still tryna knock you off the roof kid  
Singing you the blues, you crayon up the music  
Change it in the rainbows and rubics  
Keep telling yourself you the wave of the future  
How a ? is  
It's huge if you refuse to blow your fuses  
You blow up, exactly how Lup did..

[Hook]

I hope my stories can keep you off Maury  
Away from ? far from mandatory  
Which means, through the ? only way you see the  
shorties  
Keep your songs out the slums and your daughters  
Out of orgies  
Look in the mirror, see yourself and the ?  
Spitting in your ear, I fear nothing that's before me

And always remember that you're royalty  
From the line drawn to this Porgy  
And everything that's in between  
Make sure you cherish every scene  
And put on the biggest show that ? ever seen  
Now even if you've never limousined  
Important, yeah you're very there

There's red carpet everywhere

[Hook]

Just know I got your back, yeah I got it  
And I'mma go to bat like Gotham's under attack  
I will spot em, keep you from ever touching the mat  
Be your Robin, bring that honor-minded ?  
All your problems like "zap! boom! bang!"  
Cause all y'all my pals  
I channel through your tribulations, channel through  
your trials  
Please God, help keep the value in my vows  
A man of my words that Vanna turns around  
And if your fortune turns, I never turn you down  
No matter who your healthcare provider, I'm a rider  
Even if I gotta bring the fibulators out  
A John Q ? just for you..Explain

Thanks to s
