Okay, what up to my whirlwind, turn like tilt-a-whirls
I be throwin' up my set, yes! 'Urlin' up the world and
Goin' out, we goin' in, say "Hello" to my girlfriend
Vomiting and conquering - That C-class is a "girl benz"

My class is overseas, I be on all around the world rims
Women's international, my will is like my girl: thin
Goin' in is goin' wild, goin' in is goin' strong
Goin' for the gold somewhere that goin' in is goin' on

[Record scratch, music stops]

Okay, what up to my whirlwind, turn like tilt-a-whirls
I be throwin' up my set, yes! 'Urlin' up the world and
Goin' out, we goin' in, say "Hello" to my girlfriend
Vomiting and conquering - That C-class is a "girl benz"

My class is overseas, I be on all around the world rims
Women's international, my will is like my girl: thin
Goin' in is goin' wild, goin' in is goin' strong
Goin' for the gold somewhere that goin' in is goin' on

I can do this all day, I ain't got an arcade
They all say I'm wall short of a whole hallway
One Hall's short to keep from coughin' all in y'all face
Man, I'm so appalled, I can keep them all safe

I can really ball and put them titties all in y'all face

That was Robert Paulson, and that deserves a pausin'
So, that's block piercin', all that's missin' is the bearer
For the coffin that is needed for this beat when I'm
done talkin'

Ballin' in the mornin', this feel like my callin'
It's the new witches brew, fall off in my cauldron
Lupe's goin' crazy, flow is goin' almonds
We goin' back to goin' in, you gonna need a Garmin

Then go and get a car and put your Garmin and my
broad in
Destination: everywhere, reputation: everywhere

Music drop, music stop, one man take up every chair
I know that that ain't very fair how one man take up
everywhere

But it ain't for long though, it'll be some closure
Or maybe I'll be everywhere after I'm all over
Say goodbye then start the show, fall on off then start
to blow
Actin' like I'm rappin', it's that Joaquin Phoenix
Facebook flow

Flow is in the microwave, call it Michael Tyson flow
Killin' is a dirty job - Michael Myers, Michael Rowe
Bring it back like Michael Fox, see how far them
Michaels go
I feel like I'm Michael Crichton writin' with a microphone

I ain't sayin' that you should die, but you should leave
your life alone
Maybe borrow one of mine, fast life, life at home
Life is like a box of chocolates, pockets full of
Toblerones
Rocket full of wallets for what continent we shoppin' on
