Fresh to def, she is  
From her steps to her set, she is  
So death might not let me live  
Ya dig? Fresh, yes, she is

Had a feelin' that it would be a day like this  
The orchestra in my mind don't play like this  
Naw but I'm prepared for it, got a little rare for it  
Brushed off my Airs, even cut my hair for it

'Cause normally I don't care for it  
Don't even be lookin' for light like that  
Then there it go, yeah, right over there  
So I prepared to pour it, little scared  
My stare lowered, mamma said have no fear

Plus I'm already outta my chair  
Gathered up my airs on my square from here for it  
It's nothing, right? So here go it  
Whispered in her ear, it was crowded in here  
Would she care to blow it? She said yeah

You're my sunshine, you're my moonlight  
You're the starry skies above me  
Won't you please come down and hug me?  
Think I found love in this club tonight

Never met her before  
But I think I like her like a metaphor  
It's hard to get in the car, we sit from the intro  
She rolled down the window just in case I was a schizo

I compliment on her common sense  
I'm calm a little, more confident, uh huh  
And then we lose consciousness  
She says that, "I've been waitin' for you"

"And I know that you've been chasin' me too  
Since they kidnapped me from my castle  
I've been thinkin' of you  
I told a fire breathin' dragon, he bet not harm me  
Or be sorry when he meets my for my one man army"

"And thou has come to rescue me  
My knight in shinin' armor, yes, you be"  
Woken up by the horn of an S.U.V.  
I said, "See too beautiful to let you sleep"

You're my sunshine, you're my moonlight  
You're the starry skies above me  
Won't you please come down and hug me?  
Think I found love in this club tonight

Relationship is just 30 minutes long  
It's kinda heavy, maybe a little strong  
Goin' take much more than once  
Can't trust what each of us say at least for a month

Or two before I bid you adieu, do this one thing for me  
Out of the trillions of numbers that's in the world  
Just leave me a few, they'll lead to you  
Won't be long and I'll see you in the mornin', cool?

You're my sunshine, you're my moonlight  
You're the starry skies above me  
Won't you please come down and hug me?  
Think I found love in this club tonight

You're my sunshine, you're my moonlight  
You're the starry skies above me  
Won't you please come down and hug me?  
Think I found love in this club tonight
