### "Thank You"

I'm just a wolf inside a lion's suit  
A shark shirt, a panther's pants, piranha hat and tiger shoes  
I got a lion's den inside the booth  
That right there is point blank  
This here is from where the sniper shoot  
Might take a long time to get it, by the time I hit it  
I done ran Bubble Tape around them Chiclets, poof  
I ain't the bomb, I'm the company that got the contract  
to rebuild during the aftermath - have a blast  
Going green only using half the gas  
the calming comes through after disasters have  
But this calm has the same fury that disasters have  
I should have a class, I'm the son/sun of the South Pole  
plus Alaska's dad  
Got niggas like "DAG!!", flow is like crazy gone mad  
And villains gone bad, Punk ass niggas, don't be so  
Daft  
Baby, why you hanging with them Busters like Babs?  
They are such a drag, you should move them to the  
trash  
Feel like I'm walking round upon Cassius calves  
Quite a beautiful script, and such a gift of gab  
A big bass, shout out to Mistah F.A.B  
Young Frankenstein reporting live from the lab  
I bought the bars out, put it on my tab  
If you came here to box, you'll leave in a bag  
I run the game, Bilderberg Group, in the lead with the  
flash  
Usain Bolt ain't even leaving this fast  
Why you take offense with your defensive ass?  
Never Hussein-ing the hole/whole, not even in the half  
Cause nigga I ain't hiding, I'm the whole world, nigga  
you're an island  
And the sea's rising, if I keep shining  
You going have to take submarines to the drive-in now
