[Verse 1:]

Fresh to death she is, from her steps to her sex she is,
So death might not let me live, You dig, fresh, uh huh,
yes she is,
Had a feelin?, that it would be a day like this,
The orchestra in my mind, don?t play like this.
Naw, but I?m prepared for it, got a little red for it,
Brushed off my airs, even cut my hair for it,
Cause normally I don?t care for it,
Don?t even be lookin? for life, like that, then there it go
n
Yea, right over there, so I?m prepared to pour it,
A little scared my dear lord, momma said ?Have no
fear.?
Plus I?m already out of my chair, got love my airs,
From my square and here forward,
It?s nothin? right, so here it go whisper in her ear,
Kinda crowded in here, wish you cared to blow it.
She said yeah.

[Chorus:]

You're My sunshine(You My sunshine)
(yea) You're My moonlight(You My moonlight)
You're the stormy skies above me
Won't you please come down and hug me
Think I've found love in this club, tonight
Oh, whoa

[Verse 2:]

Never met her before, but I think I like her like a
metaphor,
It's hard to get, in tha car we sit,
From the intro, she rolled down her window,
Just incase I was a schitzo ,
I compliment her on the common sense,
I'm calm, a little more confident,
(Yea) uh huh, and then we lose consciousness,
She says that I've been waiting for you.
And I know you've been chasin' me too.
Since they kidnapped me from a castle, I've been
thinkin' of you.
I told a fire breathing dragon He?d better not harm me,

he'd be sorry,
When he meets my one man army.
And thou has come to rescue me,
My knight and shining armor, yes you be,
Woken up by the horn of an SUV,
I said 'See, too beautiful to let you sleep.?

[Chorus:]

You're My sunshine (You My sunshine)
You're my moonlight (You My moonlight)
You're the stormy skies above me,
Won't you please come down and hug me
Think I've found love in this club tonight
Oh, Whoa

[Verse 3:]

Relationship is just thirty minutes long,
It's kinda heavy, maybe a little strong,
Gon' take much more than once,
Can't trust what each of us say, at least for a month,
Or two, before I bid you a due,
Do this one thing for me,
Out of the trillions numbers that's in the world, just
leave me a few,
That lead to you, won't be long n, I'll see you in the
mornin'

[Chorus:]

You're my sunshine (You My sunshine)
You're my moonlight (You My moo'light)
You're the stormy skies above me
Won't you please come down and hug me
Think I've found love in this club tonight
Oh, Whoa
