Saw you by the avenue, selling ends and means
Full of incidents and schemes
When you lied and when you lagged
You were such a drag but I loved you like a friend

Beloved
Make it feel like summer
Make it feel like summertime
Beloved
I'm coming undone sonny
In the danger of the ride

I liked to lie out in the wind calling love and sin
Sympathetic pharmacies
I tried to make it right, coming straight from Hell
Preacher without a prayer for myself

Beloved
Make it feel like summer
Make it feel like summertime
Beloved
I'm coming undone sonny
In the danger of the ride

Beloved
Make it feel like summer
Make it feel like summertime
Beloved
I'm coming undone sonny
In the danger of the ride
