Hey, what you'd say your name was?
Rubber Back

You got a brain you ain't using
You got charm you're abusin'
You're too busy out there floosin'
Or lying at home snoozin'

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Time moves along
You don't have a life anymore
Time moves along
You don't have a job, I got four

Spend my money on cigarettes
Midnight dragon, off track bets
Get up at three, turn on the TV
For all I know you got a dangerous disease

So I gotta move along
I gotta move along

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Nature has it, you got no cajones
A dog in heat, a one trick pony
Lover of the life of leisure
I love to love you but I might leave you

I'm a lover of the life of leisure
If you don't like it, you can leave it

Time on your hand
Rubber on your back
Rubber in your hand
Too much time on your back

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure

Tell me why a woman who loves a man
Who never gives her all he can
He sleep all day and scam all night
Thinkin' his service makes it alright

Lady wanting the service
Me always give them the service
Lady wanting the service
Me always give them the service

Why you wanna waste away?
Lover of the life of leisure

Why you wanna waste away?
Lover of the life of leisure

Why you wanna waste away?
Lover of the life of leisure
Lover of the life of leisure
Lover of the life of leisure
Lover of the life of leisure

Lady wanting the service
Me always give them the service
Lady wanting the service
Me always give them the service
