She got unlimited missions  
supernatural visions  
superlunar ambitions  
extreme expeditions  
I got all my own reasons  
and I've only just begun  
I can't live inside of fear  
not in my space age

All the divas are doin' it

Somebody said something  
they said never be too good  
'cause that would be too much  
yeah that would be too much  
well the jaws of life will decide  
will you?

Chorus

Space Diva I'm a believer  
Space Diva be a believer

Well I need some Diva  
some divine diva  
to wake up and wander  
to walk like a soldier  
'cause I need to fly sometime  
with all due respect to you.
