You are the one
In your concrete arms I adore you
Dirty and dear
Block out the sun
In your twists and turns I invade
You show me no fear
We blow around like tiny leaves in a big storm
Finding there's nothing left to breathe or to keep warm
You ebb and flow and your rhythm beats my head
Leave me alone while you swallow up your dead
You are the one
You cradle me and kill
Caressing my face leave me undone
You suffocate and have me
This is the place
Every door conceals a dream and a nightmare
Nothing is ever really pure in the stale air
And when it's dark everything becomes more clear
Lie in the park when I want to have you near
You are the one in your concrete arms
I adore you
Dusty and dear
Block out the sun in your twists and turns I invade
You show me no fear
Left it unsung I shall leave but I'll return
Poison my lungs, my blood is full of lead
Things unsaid
My love for you still burns
