Single girl, I don't want to be a single girl
Single girl, I don't want to be a single girl
Don't want to be on my own again tonight
Don't want to put out the light

Single girl, I don't want to be a single girl
Single girl, who would want to be a single girl
Don't want to talk to myself again tonight
Don't want to put out the light

When you abandoned me
Well, it was heaven sent
When I abandoned you
It was what you meant
Well, it was me that knew it
And it was you that went
Haven't changed our minds
It was meant to be

Ooooooooooooooooooooo-wa!

Don't want to clean up your mess again tonight
Don't want to be in a fight
And I can do what I want again tonight
With who I choose, it's alright
Whoa, whoa, whoa

Single girl, I just want to be a single girl
