(Berenyi)

Come with me
Into a cool blue stream
Bleed into oceans green
Lips open wide
Drinking the tide

Reach for me
Here where the ocean sea
Melts and you sink with me
Deeper inside
I'll make you mine

Take me down
Down where their voices drown
Down where the only sound
Echoes for me

Floating away
Under the waves
Kiss me again
You'll tell me when
Salt on my lips
Cool fingertips
Under the sea
Stay here with me
