I watch you tremble in a troubled place
let me help you
i'm on your side

tears are rolling down your shattered face
let me assure you
look into my eyes

can't you see how this was meant to be
i know where you belong
when your soul is screaming for a friend
look into my eyes

every heart sleps trough the universe
when you need shelter
rest by my side

trough your journey on this fragile earth
when you seek silence
look into my eyes (in your eyes)
can't you see how this was meant to be (in your heart)
i know where you belong (in your life)
when your soul is screaming for a friend
look into my eyes

the night that you should light a candle
and cross the dark nights
you won't ever need to doubt me
i'll never let you down (down down)

(in your eyes)
can't you see how this was meant to be (in your heart)
i know where you belong (in your life)
when your soul is screaming for a friend
look into my eyes (in your eyes)
(in your heart)
(in your life)
(in your heart)
