I'm going down

Down, down, down, down, down

Going down

Down, down, down, down, down

My heart in my hands

My head laying all around

You see my woman, had to hurry home

See my woman yeah, had to hurry home

I'm going down, down

Down, down, down, down, down

Going down

Down, down, down, down, down

I'm going down, yeah

Down, down, down, down, down

My heart in my hands

And my head laying all around
