I'm-a sitting here and thinking, drinking too
I got no real feeling but I got my blues
If you don't want to treat me right, the hell with you

I got my guitar squeezing ' my strains
Ain't got me no woman, don't mean a thing
Listen to the music, join into my game

(spoken: can't you see what I mean)

All my friends, they've been havin' another ball
All my friends, they've been havin' another ball
If I can't get a pretty woman, I don't want no woman at
all
