Aww, back to back and side to side  
There's only music on my mind  
Nothing to worry about but the beat

I wanted you to come and dance with me  
But you wanted to stay home and watch T.V.  
Ahh, but when I got there to my surprise  
There was another guy looking in your eyes

I don't want, don't want us to fuss and fight  
From right now 'til tomorrow night  
So if you promise to love only me and be by my side  
I'll let you slide

Aww, without a doubt tonight is the night  
That we gon' really roll when the time is right  
And we're gonna carry it into the dawn

Oh, but where are you, where can you be  
I've been waiting, it seems an eternity  
I took our favorite song from the record stack  
It was hey, Jimmy Mack  
When are you coming back?

Well, I'm so disappointed you're gone tonight  
'Cause your love is the spice of my life  
But if you hurry back in the mornin'  
Then alright, huh, I'll let you slide tonight

Up and down, pacing round, walking in my sleep  
'Cause you've got a promise to keep  
You've got to come back  
And love, love, love, love, love me right  
And, huh, I'll let you slide tonight

I, I, I can't wait 'til tomorrow, baby  
Can't you come over tonight?

I, I, I can't get to sleep, my baby  
Come and rock my cradle left to right

(I tossed and turned and called you up)

I tossed, and turned, oh ya  
But there wasn't anybody home

(It makes me sad, I need you bad)  
But I guess I'm just gonna have to wait until tomorrow  
comes

(Slide)  
Oh, I knew it, I knew it, how could you do it?  
(Slide)  
It's alright, huh, I'll let you slide tonight

I'll let you  
(Slide)  
How could you do it? How could you do it?  
(Slide)  
Well alright, whoo, I'll let you slide tonight

I hired me a private eye  
To check up on your cool little alibis  
And what he discovered was woeful to me

Baby, if you do intend to stay with me  
Then you can't see the guys that I know you see  
Come on, let's make up and promise to start anew  
Let's take the morning off, I've got some plans for you

Making love by the moon can be mighty fine  
But when the sun rises, so do I  
So if you rock it to me in the morning  
Then alright, huh, I'll let you slide tonight

Really missed you today, I was on the run  
So wake me up when the morning comes  
I think I'll dance to some music and groove on the party  
light  
Huh, and let you slide tonight

Get up, ooh, let's love baby  
(Ooh ooh ooh ahh)  
If you do it nice in the mornin'  
Then alright, huh, I'll let you slide tonight

Get up, ooh, let's love baby  
(Ooh ooh ooh ahh)  
If we do it twice in the mornin'  
Well alright, whoo, I'll let you slide tonight

Get up, ooh, let's love baby  
(Ooh ooh ooh ahh)  
Be my sugar and spice in the mornin'

And alright, huh, I'll let you slide tonight

Get up, ooh, let's love baby

(Ooh ooh ooh ahh)

If it's really nice in the mornin'

It's alright, huh, I'll let you
