Hit the town in the cold of the night
Looking 'round for the warmth of the light
There was fog on the road
So I guess no one saw me arriving

I was tired and awake for some time
Then my lights hit a welcoming sign
It said if you're alone
You can make this your home
If you want to, oww

Searching, searching
(For so long)
Searching
(Searching)
Searching, searching
(I just wanted to dance)
Searching

Stepped outta the night
It was brighter inside
Someone come and asked me my name
Taken back by surprise
When I saw with my eyes
A girl in a love's disguise

She said stop, stop, stop
Get out your heart
Haven't got a lot
But play the part

Mister, stop, stop, stop
Get out your heart
What I've got's hot stuff
The night is ours

Coffee glass that had fell from my hand
Like a child couldn't quite understand
What was I doin' there
Far away from nowhere, on my own

I was tired and awake for some time

Just the light playing tricks with my mind
Was she there in a crowd
Was the music too loud, was I dreaming

Searching, searching
(For so long)
Searching
(I don't want romance)
(I just want my chance, searching)
Searching, searching
(Yeah)
Searching

Just came by here by chance
Only wanted to dance
No news, no her, no, no, no one
Taken back by surprise
What's in front of my eyes
This girl in a love's disguise

She said stop, stop, stop
Get out your heart
Haven't got a lot
But play the part

Mister, stop, stop, stop
Get out your heart
What I've got's hot stuff
The night is ours
