Hey, I keep going over and over it again in my mind
I get these flashbacks and uh I feel so good, yeah
And this is one night that I'll never forget
You see it was just like in the movies I mean it actually
happened
Just like this

Yeah, the stars were shining
Brighter than most of the time
Then love came out of nowhere, yeah
No thrill will ever be like
(The night that I fell in love)

I tenderly remember
(The night that I fell in love)
It surely was the best thing I ever did that night
(That night when I fell in love)
The stars were in your eyes
(The night that I fell in love)
With you, hey

Ooh, I've known so many people
Been to most parts of the world
And seen some things that have blown my mind
Yes I have but nothing will ever be like
(The night that I fell in love)

I tenderly remember
(The night that I fell in love)
It surely was the best thing to happen to my life
(That night when I fell in love)
The star's light were in your eyes
(The night that I fell in love)
With you, hey

Oh, yes
Oh baby what else
At night

Ooh yeah, I thought I could be happy
Without any love in my world
But now I know that, that is so untrue, yeah

No thrill will ever be like
(The night that I fell in love)

I tenderly remember
(The night that I fell in love)
Yeah, it surely was the best thing to happen my life
(That night when I fell in love)
The star's light were in your eyes
(The night that I fell in love)
With you, hey

All I can ever do is think about that night
That night, that night
All I can ever do is think about that night
That night

All I can ever do is think about that night
That night, that night
All I can ever do is think about that night
That night, that night
All I can ever do is think about that night
