Her heart shivers in my hand  
She's melting on me like cotton candy  
I make the faces that make you cry  
I want you more when you're afraid of  
My disease, disease is draining me  
Anymore you're not so 'pretty please'  
Disease, disease is draining me  
I want you more when you're afraid of me  
I will break you inside out  
You are mine, you are mine

Her hair hangs in swollen strings  
I make the faces that make you cry  
I want you more when you're afraid of  
My disease, disease is draining me  
Anymore you're not so pretty, please  
Disease, disease is draining me  
I want you more when you're afraid of me  
I will break you inside out  
You are mine, you are mine
