(feat. Lisa Fischer)

We don't play any games, my girl and I
We get by on the high of love
And there's no time to spend on doubt or wondering
'Cause no one else could I ever love
You see the world outside can be cold and very lonely
And it gets real bad
And it makes me sad, but
Whether or not the world gets better
You and I and love will be together, together
Whether or not the world gets better
You and I will truly survive
And it's all because our love will never die
Never ever die
We all live in a crazy world today
There's so much beauty and yet there's so much pain
And we'd be wiser to make a change, with love we
could
It's our world, we should make it good
And if the world outside gets too cold and feels too
lonely

And it gets real bad
It'll still make us sad
Whether or not the world gets better
You and I and love will be together, together
Whether or not the world gets better
You and I will truly survive
And it's all because our love will never die
Never ever die
Our love is out world
And it keeps us safely from anything outside that could
hurt us
We look out from inside
And depending on what we see
We just hold each other tightly, hold me tightly
'Cause sometimes it's just better to let it be
Whether or not the world gets better
You and I and love will be together, together
Whether or not the world gets better
You and I will truly survive

And it's all because our love will never die
Never ever die
