What you do's, it do's me baby, do's me good now  
What you do's to me, it do's me good  
You're the kind of guy I've been looking for  
You treat me good and I just wan't more  
What you do's to me, it do's me good  
You treat me like a lady  
You make me feel nice  
A candellight dinner, pink champagne on ice  
What you do's to me, it do's me good  
What you do's, it do's me baby, do's me good now  
What you do's to me, it do's me good  
When the weekend comes,  
I wanna be with you  
Let's hit the highway  
Who knows where we might go  
What you do's to me, it do's me good  
A nice hotel with a view  
What's on my mind is being with you  
What you do's to me, it do's me good  
What you do's, it do's me baby, do's me good now  
What you do's to me, it do's me good
