I'd love to go out to dance tonight
I know a disco that's out of sight
I want you all to come along
Now you just follow, follow the ladies
You just come on, come on now, come on
You owe, you owe me (You owe, you owe me)
The first, very first samba (In Waldolala)
You owe, you owe me the first dance tonight
I'm gonna take care, you won't regret it
I'm gonna see you'll be alright

Well, you're welcome to Waldolala
You're very welcome in Waldolala
Now lead your ladies from the table and show us that
you're able to do your thing tonight

Oh, what a lovely, lovely night
You're giving me such a wonderful time
I want you all to come along
Now you just follow, follow the ladies
You just come on, come on now, come on
You owe, you owe me (You owe, you owe me)
The first, very first samba (In Waldolala)
You owe, you owe me the first dance tonight
I'm gonna take care, you won't regret it
I'm gonna see you'll be alright

Well, you're welcome to Waldolala
You're very welcome in Waldolala
Now lead your ladies from the table and show us that
you're able to do your thing tonight

Well, you're welcome to Waldolala
You're very welcome in Waldolala
Now lead your ladies from the table and show us that
you're able to do your thing tonight
Well, you're welcome to Waldolala
You're very welcome in Waldolala
Now lead your ladies from the table and show us that
you're able to do your thing tonight
