Could you do one trick for me
I know you'd hope for more
Navigate the stars I see
In the light of day

Is there truth in your words
Or have you simply gone
Is it true waht they say

Don't you let me down
Don't you let me down

Where's the guy who's keeping score
The "Canibal of Truth"
Taken down by a brothers hand
In time you lose the truth

Don't you let me down
Don't you let me down
Don't you let me down
Don't you let me down

To those who'd forget the past
And destroy the moral view
In the still voice within
Do you hear them cry as one
Can you still hear them calling
Hear them calling, calling, crying, crying

Don't you let me down
Don't you let me down
Don't you let me down
Don't you let me down
