I know I've got a way to go from here It all looks the same It's practice for the show

I fall between the cracks her ein my face As if it's all there is They're laughing back at me

Breathe in - breathe out, and dream with me I'm gonna fly as far as I can see Deep in - deep out, kick, scream and shout And you will fly

I think the plants they have a way to talk Listen as they grow Ther's something that they know

Breathe in - breathe out, and dream with me I'm gonna fly as far as I can see Deep in - deep out, kick, scream and shout And you will fly

You live so high, you live so high, you live so high

You're well and standing next to me, my friend How could there be more There'll never be an end

Breathe in - breathe out, and dream with me I'm gonna fly as far as I can see Deep in - deep out, kick, scream and shout And you will fly

You live so high, you live so high, you live so high You will fly You will fly
