[Huizar]

The angel show me a shine
of the storm
Our father is my lord
And his power taught me now
That the time is over now

I saw in his eyes
the courages of the wrath
To take complain
Of the heaven in divine
Revelation of the life
In the farthest place
Killing to the art
With the sacred bread

Raw and burning souls
That are paying their sins
Vomiting fire
over corpses fields

Ho sana hey ho sana ha
Come to adore
Ho sana hey ho sana ha
Nuclear assault

God has to bless to the ones
In his word believe
And now he?s asking for
What is missing of him

The darkness is comming
From the price of your sins
The judgement day has come
With the blood and screams

[Traduccion al Espa?ol - Spanish Tranlation]

Un Angel me mostro el resplandor
De dios nuestro se?or
y su poder me ense?o

que el tiempo termin?

Vi en sus ojos el coraje de la ira
Que reclamaba una venganza divina
Revelaci?n del m?s all? de la vida
Arte de matar con la ostia concebida

Almas calcinadas
Que ya pagan sus pecados
Vomitos de fuego
Sobre cuerpos mutilados

Oh Sana Hey
Oh Sana Ha
Ven a adorar
Oh Sana Hey
Oh Sana Ha
La era nuclear

Dios ha bendecido
A los que en su palabra creen
y hoy te pide cuentas
De lo que le debes a ?l

La Muerte ha sido la factura
De tu Proceder
De todos tus pecados
Hoy es tiempo de responder
