Life is so bare, life is so, so bare  
We must not run, must not fight  
We must stay here forever  
Everything is cold, everything is cold  
I am such a child, just let me take this away... again  
Everyday i pray for love of...  
Life, every day i pray for love of...  
Life is so bare, life is so, so bare  
I don't think that i can take this again  
Everything is cold, everything is cold  
I am such a liar, just let me throw this away... again  
Everyday i pray for love of...  
Life, everyday i pray for love of...  
La la la la laa laa...
