Gave me a picture of you
So I won't forget, the oath I made :
"To love you like I'd love to be loved"
Hear my horse come my birds,

Gave me a piece of you hair,
But the wind don't care,
The wind is never fair, From the Black sea to Tuva,
O my raven fly with the black clouds,
With your blood-eye, carrion eater

The lines of our hands,
Our love lines they are the same,
And I read, I read,
But I just can see your past,

Do you dream of me mike I dream of you,
Do you dream of me mike I dream of you,
Do you feel the pain we've been going through,
Do you dream of me mike I dream of you,

Gave me your scarves, your gloves,
But I'm still cold,
And I'm scared to admit,
That I was wrong,
I could smile for a while,
Listening to your songs,

Do you dream of me mike I dream of you,
Do you dream of me mike I dream of you,
Do you feel the pain we've been going through,
Do you dream of me mike I dream of you,

You fly by day and night, you know the earth scent,
You, my black one, my grey eagle,
O Taiga, wide Taiga, always in bloom,
You my mother !
