So I know nothing of your taste  
And now speak up, louder.  
It's in your lips, I found.  
Come on, just press against me  
I finally have your attention,  
So listen closer, sweetheart.  
I've been trying to tell you, stay awake.

And no, no, when we're safe here  
Come back, come back  
You stayed always.  
Stay with me here  
Stay with me and watch these cars go by  
And tell me the first thing that comes to your mind

So watch as I go back  
I just came to say that you'll never see me again  
This clock is ours now, till morning  
So stay right there in that frame  
This picture is how we see you  
You'll never see me again,  
Cause I'll miss you already

And being that you haven't seen me  
I don't belong in anything you dream,  
In anything you dream  
She said "Put your hands back on my  
Skin and say you loved me,  
Cause I can't live like you do.  
Never could."

Come on, just press against me.  
You always have my attention,  
And please speak up louder.  
Make those lips move.

Come back on the weekend forever  
Cause you don't mean to shake like...  
Come back on the weekend forever  
Cause you don't mean to...

Stay with me and I will try to tell you  
Stay with me and I will try to tell you

So watch as I go back  
I just came to say that you'll never see me again  
This talk is all smack, and tell me more  
So stay right there in that frame  
This picture is how we see you  
You'll never see me again,  
Cause I'll miss you already
